---

My name is Rodrigo Rea and I am 17 years old. I have lived in Santa Ana my whole life. I urge the City Council to delay the adoption of the General Plan. As a resident of Santa Ana I have a right to be heard but the City Council chooses to ignore my voice and the voices of the communities impacted by social justice issues. They shouldn't adopt the General Plan until the community has a chance to give input. City Council members know so little about social justice issues in our community, they need to come to our communities and see first hand what we are dealing with. Air pollution, water pollution, lack of open space are just some of the issues we face. Let us speak, listen to us, that's your job!
