To Historic Resources Commission
Re: [2320 N. Heliotrope Dr., Santa Ana](#) (W. H. Spicer House)

Thank you for considering this property for historic designation. Based on the evidence in our application, our hope is that the committee recognizes the significance this home has in the Floral Park community and the city of Santa Ana.

In 2018, we moved to Floral Park because of the historic charm and strong sense community. We believe that the historic charm is preserved in Floral Park due to the strong community that lives within. We wish to continue that tradition by obtaining historic designation for this home. We will proudly maintain the historic characteristics with assistance of the Mills Act.

Thank you again for your consideration. As we raise our family in this home, we would be honored to preserve this historic property for the city of Santa Ana and so that Floral Park can remain the neighborhood it is today.

Thank you,
Matthew & Leigh Mohler
