The General Plan goals and policies will guide the City's physical development, fiscal and environmental sustainability, and overall quality of life for the community. The proposed General Plan identifies Five Focus Areas for potential change and new growth. These areas include South Main Street, Grand Avenue/17th Street, West Santa Ana Boulevard, 55 Freeway/Dyer Road, and South Bristol Street. The Recirculated Draft PEIR indicates there may be significant unavoidable adverse environmental impacts associated with the following environmental categories: Air Quality, Cultural Resources (historic resources), Greenhouse Gas Emissions, Noise, Recreation, and Population and Housing (population growth). Upon compliance with regulatory requirements and recommended mitigation measures (as appropriate), all other environmental impacts were found to be less than significant.
